

HRA DRIVERS' PROTECTIVE VESTS APPROVAL FOR USE IN AUSTRALIA - APPLICATION FORM

Harness Racing Australia (HRA) has established a new procedure for the approval of Drivers' Protective Vests. This is part of a commitment to ensuring all equipment used is of the highest standard and meets the most stringent of testing requirements.

Please refer to [HRA Drivers' Protective Vests Approval 2014 Policy](#) for further information.

From 1 July 2014 there are two ways in which a Driver's Protective Vest can be approved for use in Australia.

1. If the vest is certified to the current EN 13158:2009 Level 2 or higher and has been certified by BETA to this level (and carries the appropriate swing tags), an application can be made for it to be approved for use in Australia.
2. If the vest is not certified by BETA at the appropriate level, then application can be made for it to be certified by Harness Racing Australia, where it will be tested to ensure that it meets the requirements of EN 13158:2009 Level 2, or higher. If approval is given, then an appropriate HRA swing tag must be affixed to show that it is an approved vest.

To submit a Driver's Protective Vest for approval for use in the Australian market, please complete this application form, including payment details and the required declaration, to Andrew Kelly, Chief Executive, Harness Racing Australia via email akelly@hra.com.au.

The current fee is \$880 **per vest to be tested** (Including GST) and is subject to change without notice. Payment for testing needs to be forwarded to HRA **PRIOR** to any commencement of testing. This can be done by (please tick):

- Direct deposit: Harness Racing Australia BSB 633 000 Account 159 968 668
- Credit card payment: Call 03 9227 3000 and advise payment is for a vest testing fee

As per HRA's Requirements, new vests are required to undergo testing at the HRA approved testing location, Velocity Track Engineering Consultants (VTEC). No other testing facility can be used, and vests cannot be used in official races or trials until testing is complete and certification given.

All vests, once tested, are then presented to the HRA Gear and Equipment Committee for approval and will be placed on the [HRA Approved Vests List](#). All State authorities will then be informed of its approved status.

HRA is committed to working with the industry to ensure that all gear and equipment used is of the highest standard and meets all safety requirements.

Applicant and Vest Details:

Name of Driver Protective Vest: _____

Name of Manufacturer: _____

Name of Person making application: _____

Name of Company making application: _____

Address of Person making application: _____

Contact number (s): _____
